

## iQCX

Ticketing

### What is iQCX Ticketing?

iQCX Ticketing is a web-based application that automates all aspects of the ticketing process from basic ticketing to complex split tickets and exchanges.

### Why Would You Use iQCX Ticketing?

Let's face it, keeping existing customers and winning new ones is the key to your survival. There is always another agency knocking on your customers' doors promising faster, cheaper, more accurate and around-the-clock service. In order to win business, every facet of your reservation process must be efficient, cost-effective, and equipped to meet or exceed your customers' expectations.

iQCX Ticketing improves your competitive edge by:

- Reducing your costs and improving your ticketing accuracy
- Helping to get your customers on their way by offering truly touchless reservation processing

### iQCX Ticketing Delivers

iQCX Ticketing enables you to eliminate the costs associated with ticketing delays and errors by improving the accuracy of the ticketing process while reducing the amount of work required.

With iQCX Ticketing you can:

- Immediately ticket all online reservations booked on your site, thereby guaranteeing the expected fares.
- Offer your customers a truly touchless reservations process that will allow you to be profitable while remaining price-competitive.
- Eliminate debit memos by consistently processing splits, exchanges and refunds that are free of errors.
- Improve customer satisfaction by offering 24/7 reservations processing without paying an after-hours service to ticket on your behalf.
- Get your agents away from the ticket printer and back on the phone making profitable reservations.

"With iQCX Ticketing we reduced our ticketing costs by 30% and increased our ticketing speed by up to 500%. We love iQCX Ticketing and can't say enough good things about the product and the people at Cornerstone we have worked with. Thanks so much for making our jobs easier!" - Child Travel Services
