Have You Connected?

With The Industry's Leading Integrated Travel Operations, Spend Management, And Data Platform

Say Goodbye to Disconnected Data

Don't resort to a patchwork of solutions to manually sync data across your ERP, payment, and human capital systems. Cornerstone integrates data across systems and silos, enhancing efficiency and insights with one powerful platform solving business problems quickly and at scale including:

- Disconnected Spend Data
- Manual Invoice Processing
- Inefficient Payment Management
- Inconsistent Human Capital Data
- Limited Spend Visibility

Expense

Seamless Expense Integration

Cornerstone automates the integration of disparate data sources into top expense platforms like SAP Concur and Coupa. By unifying data between multiple systems, we ensure accurate and timely updates across your expense management systems and sync them with ERP, HR, document management and other systems.

- **Effortless Data Capture:** Scheduled or on-demand, automatically capture and transfer expense data from various sources (including receipts and reports) directly into your ERP, AP, or payment platform
- **Streamlined Approvals:** Powerful microservices include data mapping, transformation, validations and more
- **Policy Compliance:** Real-time data interaction without interrupting other data flows to your ERP
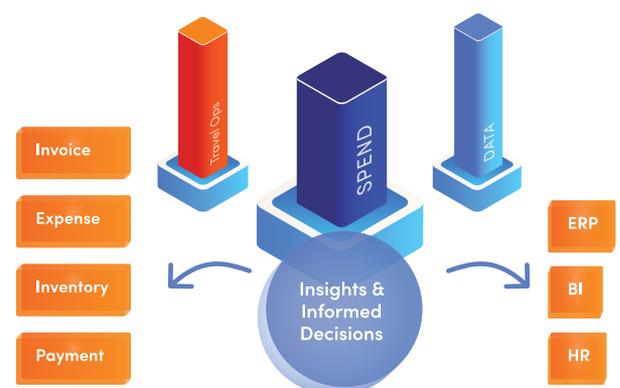

Easy Integration		Productivity		Scalable	
More than **1045**	Average # of data sources integrated	**50%**	Reduction in resources	**10M+**	Transactions processed per month

Invoice

Efficient And Accurate Invoice Processing

Say goodbye to the days of manual invoice entry and endless reconciliation. Cornerstone automates invoice integration of data and supporting documentation to payment and accounting entries in ERP systems.

- **Manage Cash and Incentives:** Provide AP and financial managers with real-time liability management and payment processing
- **Precise and Accurate:** Ensure accuracy with automated three-way matching and validation against purchase orders and receipts
- **Reduce Manual Errors and AP cycles:** Lower cycle time to process documents and invoices while removing manual touches to eliminate human intervention

Simplify Payment Management

Manage your payment data flows through a single, integrated platform. Cornerstone syncs vendor and employee payments and provides instant access to expense or invoice details and payment status to payees.

- **Automated Payment Workflows:** Automate payment schedules data flows of approved to pay items for timely payments
- **Your Payment Choice:** Use your providers, credit cards, or banking partners to pay and ensure your data gets into your ERP and employees' hands
- **Payment Visibility:** Sync data on payment status and history, helping you manage cash flow

Human Capital

Integrate And Optimize Human Capital Processes

Cornerstone integrates your human capital management data with other enterprise systems, automating hires, terminations, organization hierarchies and access to spend platforms. Connect to domestic and international payroll platforms to process timely payments for employee reimbursement.

- **Seamless Data Sync:** Ensure that all systems reflect the most current employee information, reducing discrepancies and manual corrections
- **Efficient Employee Management:** Simplify onboarding, offboarding, and other HR processes with automated data update
- **Consistent Reporting:** Reporting is more accurate within each system and consistent across them since their data is updated and in sync

Spend Analytics

Comprehensive Spend Visibility And Control

Gain a holistic view of your organization's spending. The Cornerstone platform consolidates spend data from various sources, providing insights and control over your financial landscape.

- **Predictable Collection of Direct and Indirect Spend:** Advanced data analysis techniques deliver insights to make informed decisions and drive improved business outcomes
- **Trustworthy:** Data profiling is essential for establishing confidence and trust. Cornerstone examines and analyzes data to ensure its accuracy, consistency, completeness, and relevance, providing a comprehensive assessment of your organization's data quality and empowering critical decision-making
- **Have It Your Way:** Cornerstone formats and loads data into customer systems or third-party platforms to support business intelligence and scenario planning
